

Transformer Option for ProBlue® 15 liter Melter

Nordson ProBlue 15 liter adhesive melter with transformer make high-voltage installations fast, easy and space efficient. The transformer allows ProBlue melter to accept inputs of 400 and 480 volts AC and eliminates the need for a secondary transformer installation on the parent machine.

ProBlue 15 liter melter with transformer:

- Install quickly and easily
- Accept up to 6 hose/gun capacity configurations
- Require no modification or additional wiring to the melter
- Utilize standard 240 VAC melter configurations

Quick disconnect plug for easy input voltage connection

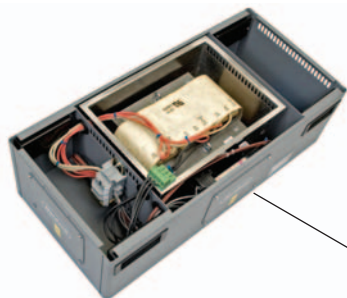

Removable panel makes fuses easily accessible from front of melter

Transformer Option for ProBlue® 15 liter Melters

Quick Installation

Keyed, quick-disconnect plug allows fast, easy transformer connection to melter.

Melter easily separates from transformer

Specifications

Electrical service	400/480 VAC (3 phase PE) 50/60 Hz	Dimensions - Transformer	Width 686 mm (27in) Height 203 mm (8 in) Depth 318 mm (12.5 in)
Factory pre-wired	480 VAC	Mount dimensions	581 x 249 mm (22.9 x 9.8 in)
Secondary output	230 VAC 1 phase	Enclosure rating	IP54 (NEMA 12 equivalent)
Maximum capacity 6 hose/gun	5.0 kVA	Melter compatibility	Compatible with all 240 VAC P15 melter models
Transformer type	Auto, non-isolated	Transformer base assembly	1048981 - 9.0 kVA Transformer base assembly
Maximum current rating	400 V 13 amp 480 V 11 amp		
Weight	50 kg (110 lbs)
